## **DETAILED ACTION**

### ***General status***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08/28/2009 has been entered. Claims 1 and 5 are pending in the case and are being examined.

### ***Drawings***

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters "8" and "10" have both been used to designate upper side. The original drawings submitted on 6/16/2006, shows numeral 10 in Figure 3, on the upper side of the figure, whereas the Figures 1 and 2, submitted on 2/10/2009, shows numeral 8 on the upper side of the figure and numeral 10 on the lower side of the figure. Therefore, the use of numeral 8 and 10 is inconsistent in Figures 1 and 2, compared to the original Figure 3.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of

Art Unit: 2833

any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Nonken [US 3,812,314].

Regarding Claim 1, Nonken [Figure 3] disclose a switchgear assembly having an insulated gas filled enclosure [16] and at least one switch disconnector [4'], characterized in that the switch disconnector is in the form of a three-position vacuum switching chamber, including an electrically conductive edge board [2'] that extends radially outwardly and includes an integrated annular seal [at 2b', column 7, line 45], that engages an outer surface of the gas filled enclosure [16, column 7, lines 49-52], wherein the disconnector forms a bushing [1b', 1a'] leading from a inside of the gas filled enclosure to a location external to the gas filled enclosure. Regarding Claim 5, Nonken discloses a cast resin body [column 3, line 35] to form an integrated cast resin bushing.

***Response to Arguments***

5. Applicant's arguments with respect to claims 1 and 5 have been considered but are moot in view of the new ground of rejection.

***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marina Fishman whose telephone number is (571)272-1991. The examiner can normally be reached on 5:30 - 4:00 M-T.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Renee S. Luebke can be reached on 571-272-2009. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
